

Goldtouch Travel Go2

Ergonomic split keyboard

KBS | Keyboard Specialists

Continuously vertical and horizontal tenting

You can adjust this Goldtouch Go2 ergonomic split keyboard at a slight inclination angle, improving your posture.

The keyboard is easy to adjust steplessly between 0 and 30 degrees. Your hand, wrist and forearm muscles will be more relaxed.

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad. Working with a compact keyboard results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm. Dark letters on a light background make them easier to read (ISO 9241) and contribute to increased productivity (Snyder, 1990).

Meets individual body requirements: continuously vertical and horizontal adjustable.

Individual adjustable: 0°-30° adjustment along the horizontal and vertical plane.

Ergonomic: less reaching to operate the mouse, comfortable and almost noiseless typing.

Mobile: compact size; completely foldable.

Connection: USB.

Width	343 mm
Height	22.9 mm
Depth	152 mm
Weight	500 gr
Product code	Multiple versions
