

# CHERRY UM 3.0

USB microphone for streaming and office use

reddot winner 2023  
best of the best

Models may vary from the image shown

The high-quality workmanship of the CHERRY UM 3.0 makes it visually striking and is extremely stable thanks to its robust three-legged metal stand. Whether for video calls, streaming sessions or when gaming online – good communication is an all-important element. If you value professional sound and don't want to rely on the built-in microphone in your laptop, headset or webcam, the CHERRY UM 3.0 streaming microphone is the perfect choice. A sampling rate of 96 KHz and 24 bit guarantees clear and detailed voice recordings.

Equipped with a cardioid polar pattern, the USB microphone achieves first-class results when it comes to capturing voice re-cordings of a single person. It is therefore ideal when streaming, for using in the office or for voice-overs. Unwanted background noise is automatically filtered out, so you can concentrate fully on what you want to record.

In addition, this streaming mic has the added bonus of a practical push-to-mute function that can be conveniently switched on and off. When the LED indicator lights up red, the microphone is muted. To avoid accidental recording, all it takes is a touch and the microphone is muted. If you want to continue recording, tap the mute icon again and the red LED

indicator goes off.

The convenient headphone jack makes it easy to connect head-phones to the microphone. The design of the additional volume control for the headphones on the back of the mic is based on the CHERRY mouse wheel, and means you always retain control over the sound of your recordings.

The CHERRY UM 3.0 is ready to use – right out of its plastic-free packaging. No time-consuming assembly or software installation is required. It connects easily to a PC, Mac, PS4 or PS5 via Plug&Play using the included USB cable – set it up, plug it in, and record!

## FUNCTION AND PERFORMANCE

- Attractive design in matte black
- Three-legged design stand made of solid metal guarantees stability
- First-class sound quality
- Compatible with PC, Mac, PS4 and PS5 (Plug&Play via USB cable)
- Convenient push-to-mute function
- Headphone jack with integrated volume control in CHERRY design

## TECHNICAL DATA
