

CHERRY MA 3.0 UNI

Adjustable and universal microphone arm for more space to work

Models may vary from the image shown

If you only intend to record a podcast or make a video call, it is usually sufficient to simply place the microphone on your desk. However, if you are dealing with situations where you need to use the keyboard and/or mouse at the same time as speaking, it is important to have enough space to move. In situations like these, the CHERRY MA 3.0 UNI microphone holder is a good choice. Thanks to its sturdy aluminum swivel arm, the angle of the micro-phon arm can be freely adjusted and the microphone can thus be optimally positioned. The classic black design of the arm and the high-quality workmanship complete the package. And the microphone arm is not called "UNI" for nothing – not only does it support the microphones of the CHERRY UM MICROPHONE SERIES, but also a variety of USB microphones and is therefore universal. The CHERRY MA 3.0 UNI has both a 3/8" threaded connector and 5/8" adapter included. With a net weight of 1,294 g, it is capable of carrying microphones weighing up to 1.5 kg. In addition, there is a practical cable slot in which both standard XLR and USB cables can be easily hidden. Simply attached to the desk using a clamp, the MA 3.0 UNI mic arm takes up very little space and ensures that the microphone remains stable

and securely in place!

FUNCTION AND PERFORMANCE

- Stable microphone arm made of aluminum in classic black with table clamp (up to 60 mm)
- Swivel arm means the microphone can be positioned ideally at any angle
- Maximum load of up to 1.5 kg
- 3/8" threaded connector with extra 3/8"-to-5/8" adapter included
- Suitable for universal use: Not only supports CHERRY UM MICROPHONE SERIES microphones, but also a wide range of USB microphones
