

MC3.1 GAMING MOUSE

Fast wired mouse for gaming and e-sports

Models may vary from the image shown

Play and work sportively with the CHERRY MC 3.1 wired RGB gaming mouse. Fast and precise due to the powerful, high resolution Pixart Sensor with adjustable DPI up to 8,000, full speed USB 2.0, and excellent processing performance. Thanks to a low lift off distance and patented handy tank track mouse wheel design you have got maximum precision and grip even in hectic situations. The 6 freely programmable keys and illumination modes are stored in internal memory. The RGB lighting uses the complete color spectrum and can be illuminated in 16.8 million colors with many different illumination effects. With the well-placed CHERRY key, you have instant access to the CHERRY Utility software to customize mouse settings. The whole performance integrated into a symmetrical design makes it the perfect mouse for your game!

HIGHLIGHTS

- Fast and precise thanks to the powerful, high-resolution optical Pixart sensor with up to 8,000 DPI – adjustable using software or a DPI switch on the bottom (depending on version)
- USB 2.0 full speed interface
- CHERRY key for instant access to the CHERRY Utility software to customize mouse settings

- 6 Free programmable buttons and illumination modes on internal memory
- Low lift off distance
- Complete color spectrum – can be illuminated in 16.8 million colors (RGB) with many different illumination effects
- With windows driver software, complete configuration of the device
- Freely programmable profile settings for DPI resolution can be set in the software. Can be changed with the DPI switches, displayed via white status lights.
- High-tech mouse wheel with tank track design (patent pending) for maximum precision and grip even in hectic situations
- Large glide pads
- Logo projection
