Accuratus S24B - Slim-line Professional & Durable Fully Customisable USB Keypad with 24 Programmable Keys

FC CE

## About

The S24B keypad is a slim-line fully programmable 24 key durable keypad designed for heavy use and multiple users. The keypad can be updated with additional double, quad or blanking keys to speed up any data input and ease of use. The key tops have a removable cover so you can put any colour/ text or direction on any key making this the easiest programmable keypad to use.

The Accuratus range of programmable keypads are supplied with a free Windows down-loadable application so they can be programmed to suit any bespoke application. The programming is stored within the keypad,once programmed the keyboard can be plugged into another computer and all programming will still be the same, the programming software does not need to be installed on every computer. This offers excellent flexibilty so that the keypad can also be used on Mac and Linux computers once it has been programmed on a Windows computer. Our team are on-hand to assist with any programming requirements if you or your customer needs any help, we can even customise this keypad for any bespoke requirements if needed.
