

KEYGUARD for ACCURATUS MONSTER2

White Metal Keyguard for Accuratus Monster 2 Range of Keyboards

Order Code: KYBKG-MONSTER2

Accuratus Monster 2 Keyguard - White Metal Keyguard for Accuratus Monster 2 Keyboards

About

A keyguard is a plate which fits over a keyboard and the holes are positioned directly over the keys. The user can rest their hand on the keyguard and make a single key press. Our keyguards are manufactured in powder coated steel with a wipe-clean surface. The keyguard clips directly onto the keyboard but can be easily removed if necessary. Although we can sell you a keyguard on its own, each one is designed for a specific keyboard or range and is unlikely to fit other keyboards.

This is our Monster 2 keyguard which has been specifically designed for the Accuratus Monster 2 range of keyboards, including all variants.
