X-keys XK-80

The XK-80 offers an 8 x 10 grid of programmable keys to trigger macros, shortcuts, and applications, select tools or open files or directories. Key blockers can knock out unused keys and delineate groups to instantly create a custom control panel.

- A versatile control solution for any computer application
- Supports our widest range of input features
- Includes software for Windows and OS X
- Free software development kits and code samples
- Emulates Keyboard, Mouse, Game Controller, and Media commands
- Wired USB connection
